PROFILE

Passionate and dedicated educator with extensive experience teaching Science at both the TGT and PGT levels. Adept at managing classrooms, implementing inquiry-based learning strategies, and fostering a collaborative learning environment. Proven expertise in working with diverse student populations in both IB and CBSE curriculum, with a strong focus on Biology, Science, and STEM education.

WORK EXPERIENCE

Skill Stork International School, IB School (Warangal, Telangana)

2022- PRESENT

- Delivered engaging and differentiated lessons in Science for both TGT (Class 6-10) and PGT Biology (Class 11-12), fostering a deep understanding of scientific concepts.
- Collaborated with fellow educators to implement the International Baccalaureate (IB) PYP framework, focusing on inquiry-based learning and interdisciplinary projects.
- Developed and integrated STEM-based activities into the curriculum, encouraging students to explore Science through hands-on experiments and real-world applications.
- Managed the STEM Lab, providing students with opportunities to develop practical skills in technology, engineering, and mathematics alongside their science education.
- Worked closely with students in Biology to prepare them for higher secondary examinations, ensuring they gained comprehensive knowledge and practical skills.
- Conducted regular assessments to monitor progress and provide constructive feedback to students.
- Organized science fairs and other collaborative student-led initiatives to promote curiosity and engagement with scientific concepts.
- Actively participated in parent-teacher meetings and school events, creating an open line of communication between students, parents, and school administration.
- I can work as a Coordinator because I assist my current coordinator in this organisation

Raj Vedanta Public School (Bhopal, M.p.)

2020- 2022

- Teach PGT Biology to Classes 11-12, covering topics like genetics, ecology, and human biology.
- Assist in biology lab setup, guide students through practical experiments, and ensure safety and accuracy.
- Monitor student progress, provide feedback, and support exam preparations.
- Maintain the biology lab, ensuring equipment and supplies are ready for use.

- Delivered Science (6- 8) and Environmental Studies (EVS) lessons to Primary school students (Classes 1-5), focusing on scientific concepts and environmental awareness.
- Designed inquiry-based lessons that encouraged critical thinking and hands-on learning.
